Report on

One Day Seminar on 'ChatGPT - An AI Companion and Careers in IT'

In the department of CSE, a one day seminar on 'ChatGPT - An AI Companion and Careers in IT' was conducted on 17/02/2024 for the students of III year CSE under CSI Student Branch and Institute Innovation Cell(IIC). Ms. P. Sivanandhini, III Year CSE welcomed the gathering. Dr. S. Padmapriya, HoD/CSE introduced the resource person Mr. R. SATHISH KUMAR, (2000 Batch Alumnus), Project Manager, ACL Digital, Chennai, Tamilnadu – 600032. The HoD/ CSE honoured the resource person and delivered the inaugural address and described the usefulness of the seminar. Details of the sessions are given below.

The morning session of the seminar concentrated on unraveling the core concepts of ChatGPT, exploring its underlying principles in machine learning and data structures. The speaker provided a detailed overview of the prompts used to train ChatGPT, shedding light on the intricacies of generating responses based on input. Practical examples were demonstrated to illustrate the application of these concepts, enhancing participants' comprehension.

In the afternoon, the focus shifted towards the diverse job opportunities available in Information Technology. The speaker elucidated on different roles that professionals can pursue, considering the integration of ChatGPT and AI technologies. Various career paths, including roles in natural language processing, AI development, and data science, were discussed. Attendees

gained insights into the dynamic landscape of IT careers, particularly those influenced by the advancements in AI.

The seminar concluded with an interactive query session, allowing participants to seek clarification on the concepts of ChatGPT, its prompts, applications, advantages, and the various job roles discussed in the afternoon session. Attendees engaged in discussions, seeking insights into both the technical aspects of ChatGPT and the broader career opportunities within the IT industry. The speaker addressed queries, fostering a dynamic and participative learning.

The seminar successfully provided attendees with a comprehensive understanding of ChatGPT, focusing on its core concepts, prompts, and applications, while also exploring the multitude of job roles available in Information Technology. Participants left with valuable insights into potential career paths shaped by the integration of ChatGPT and AI technologies.

Ms. **GUNA DHIVYA VARSHINI V** from III CSE are acted as anchors and **MAHALAKSHMI M** of III CSE proposed the vote of thanks.
