AVCCE CHRONICLE

NEWS LETTER

(Quarterly Issue: Jan- Mar 2026)

| Volume - 1 | Issue - 3 |

DIRECTOR MESSAGE

Dr. M. Senthilmurugan, Ph.D.,
Director,
A.V.C.College of Engineering.

Dear Students, Faculty, and Well-wishers, It gives me great pleasure to share my thoughts in this edition of our college newsletter “AVCCE CRONICLE”. This publication reflects the dedication, creativity, and achievements of our academic community. Each page is a testament to the hard work of our students, the commitment of our faculty, and the collective spirit that drives our institution forward. In today’s rapidly changing world, education must go beyond textbooks.

Our mission is to nurture young minds to think critically, innovate boldly, and act responsibly. We aim to equip our students not only with knowledge and skills but also with values and a sense of purpose that will guide them throughout their lives. I encourage every student to embrace curiosity, seek excellence, and participate actively in both academic and extracurricular pursuits. The experiences you gain here will shape your future and empower you to make meaningful contributions to society. My heartfelt appreciation goes to the editorial team for their tireless efforts in bringing this newsletter to life. May it continue to serve as a bridge connecting ideas, achievements, and aspirations within our college community. With warm regards and best wishes for continued success.

[Dr. M. Senthilmurugan]

PRINCIPAL MESSAGE

Dr. P. BALASUBRAMANIAN, M.E., Ph.D.,
Principal
A.V.C. College of Engineering

Dear Students, Faculty, and Readers, It gives me immense pleasure to welcome you to this edition of our college newsletter “AVCCE CRONICLE”. This platform reflects the vibrant academic life, creativity, and achievements of our students and staff. Each article, event, and accomplishment featured here showcases the spirit of innovation and excellence that defines our institution.

As a college community, we continue to strive toward holistic growth encouraging not only academic excellence but also personal development, leadership, and social responsibility. I am proud of our students who consistently push boundaries and our faculty who guide them with dedication and passion.

I encourage every student to make the most of the opportunities available, to learn, to participate, and to contribute meaningfully to society. Let us continue to uphold our shared values of integrity, collaboration, and lifelong learning. My heartfelt appreciation to the editorial team for their effort in bringing together this wonderful edition. May this newsletter continue to inspire and connect us all.

[Dr.P.BALASUBRAMANIAN]

11.	SRIKANTH.E	Articles	BURJ KHALIFA	BURJ KHALIFA We can begin Dubai sightseeing with Burj Khalifa, the tallest building in the world. The Burj Khalifa skyscraper is a world-class destination and the magnificent centerpiece of Downtown Dubai, Dubai's new urban masterpiece. The world's tallest building is surrounded by hotels, must-visit shopping destinations and a world of entertainment options. World's tallest building. A living wonder. Stunning work of art. Incomparable feat of engineering. Burj Khalifa is all that. In concept and execution, Burj Khalifa has no peer. More than just the world's tallest building, Burj Khalifa is an unprecedented example of international cooperation, symbolic beacon of progress, and an emblem of the new, dynamic and prosperous Middle East. It is also tangible proof of Dubai's growing role in a changing world. In fewer than 30 years, this city has transformed itself from a regional centre to a global one. This success was not based on oil reserves, but on reserves of human talent, ingenuity and initiative. Burj Khalifa embodies that vision.  Bringing Burj Khalifa to life required a combination of visionary ideals and solid science. In the process, the project amassed an awe-inspiring number of facts, figures, and statistics. At over 828 metres (2,716.5 feet) and more than 160 stories, Burj Khalifa holds the following records: • Tallest building in the world • Tallest free-standing structure in the world • Highest number of stories in the world • Highest occupied floor in the world • Highest outdoor observation deck in the world • Elevator with the longest travel distance in the world • Tallest service elevator in the world • Elevator with the longest travel distance in the world • Tallest service elevator in the world

20.	Selvamuthukumarasamy. J BE(ICE) – III Year	Poem	Eco-Innovation on Campus: WindTrees in Focus	At first glance, a WindTree looks just like a decorative tree. But instead of leaves, it has small turbine-like structures called Aeroleafs. These “leaves” can capture wind from any direction,

			even the light and irregular breeze we typically find between buildings. That makes them especially suitable for campus environments. More importantly, WindTrees act as a visual reminder of innovation. For students, they represent how technology and nature can work  together. They turn sustainability into something visible and engaging, rather than something hidden behind infrastructure. In the end, WindTrees are not just about generating electricity they're about rethinking how renewable energy fits into our everyday spaces. And maybe, in the future, our campuses won't just use energy they'll grow it
